- Mobile Framework experience in Flutter
- Knowledge of Docker and Kubernetes
- Understanding of Unit Testing(xUnit) and Test Driven Development practices
- Content Management System experience with WordPress
- Proficient understanding of code versioning tools, such as Git
- Worked with database systems such as MySQL, MSSQL, PostgreSQL, Oracle and MongoDB
- Experience with report automation and data migration

## EXPERIENCE

### University of the South Pacific — *Analyst Programmer*

SEP 2017 - Present

My work involvement:

- Worked in an Agile team of .Net developers for a fast-paced internal software development
- Responsible for designing, coding and modifying web/mobile applications, from layout to function and according to a client's specifications.
- Developed and maintained the AAGO Application (<https://aago.usp.ac.fj/>) which is an online facility that students can use to lodge requests for Special Registration, Change of Program and Repeating a Course. Application also caters for student grievance for any decisions made.
- Assisted the Business Analyst in documents such as Scope, Requirements, Design, Testing, User Acceptance, Change Management, Rollout and Support Plan.
- Develop/maintain SQL Server Integration Services packages for data required in Institutional reporting
- Maintain/Improve key KPI related Survey reporting platforms such as Graduation Destination Survey(<https://gds.usp.ac.fj/>), Course Experience Survey (<https://ces.usp.ac.fj/>) and Total Experience Survey (<https://tes.usp.ac.fj/>)

## **Digicel – Application Support Engineer**

JUN 2017 - SEP 2017

Working mostly on supporting internal systems, my work involvement:

- Server system checks on Linux based environment
- Resolving customer issues escalated by customer care staff
- Creating data bundles for promotions
- Investigating mobile records on basis of police warrants
- Created an android app for the Digicel Sky Pacific channel and information guide

## **CERTIFICATION**

### **Microsoft Certified: Azure Fundamentals**

September 23, 2021

## **EDUCATION**

### **Master of Computing Science and Information System | University of the South Pacific**

2018 - 2020

### **Bachelor of Software Engineering | University of the South Pacific**

2014 - 2017

### **Secondary Education| Seaqaqa Central College**

2009 – 2013

### **Primary Education | Seaqaqa Primary School**

2001 – 2008

## **Hobbies and Interest**

- Playing sports (soccer)
- Playing chess
- Exploring new technologies
- Cooking
- Travelling
