## Work Experience

---

### Analyst Programmer

**The University of the South Pacific (September 2017 – Current)**

- Working in a team of .Net developers for a fast-paced internal software development
- Implemented an online facility that enables students to lodge special registrations and University approvers to process online on the ASP.NET MVC platform
- Migrated old DTS packages to new SSIS packages to align with the University's upgrade policy
- Assisted the Business Analyst in documents such as Scope, Requirements, Design, Testing, User Acceptance, Change Management, Rollout and Support Plan.
- Maintained key existing KPI Survey Reporting Platforms developed on the ASP.NET stack
- Provide L1 support and address support tickets on the company's help desk platform
- Assisted in the automation of student enrollment reports on the SQL Server Reporting Services system.

### Application Support Engineer

**Digicel (June 2017 - September 2017)**

- Worked on providing server system checks on Linux based environment
- Resolved customer issues escalated by customer care staff
- Investigated mobile records on basis of police warrants
- Created an Information guide android app using Ionic

## Personal Projects

---

### Covid19 Tracker for Fiji (ASP.NET Core 3.1, Docker Support, CI/CD, Heroku)

- Developed a covid tracker for Fiji using a free to use *REST* service and deployed to heroku
- Implemented front-end with Bootstrap, JQuery, CSS animations
- Implemented back-end with .Net Core available on heroku at <https://covidfiji.herokuapp.com/>

### Covid19 Tracker Documentation (Doks, Hugo-theme)

- Created a covid tracker app documentation for the app mentioned above
- Built using Doks which is a Modern Documentation Theme
- Available on GitHub Pages at <https://noneelprasad.github.io/covidtrackerdocument/>

### My Portfolio(ReactJS)

- Developed using create-react-app as I am not well versed with setting up custom ReactJS app
- Showcases my skills and personal project work
- Available on GitHub Pages at <https://noneelprasad.github.io/folio/>

## Relevant Certificate

---

Microsoft Certified: Azure Fundamentals – September, 2021
